Subject: Wolverine Tannery Site: Dune Technologies WWW Report

Hi Joe,

In looking over all of the information included in CCRR's most recent FOIA request from the DEQ, it was unclear whether or not you had received a copy of this report written by David Wardwell on behalf of the West Michigan Environmental Action Council.

Issues within this report have been discussed in the Tannery Clean-up Progress Review meetings hosted by WMEAC on behalf of other concerned groups and professionals. Just wanted to make sure you had received a copy, and our apologies if we have duplicated any prior efforts to

forward this information.

Thank you,

Enjoy your day,
